

## **Texas Commission on Fire Protection Application for Testing Accommodations General Instructions and Forms**

### General Instructions

Special accommodation testing is for those individuals who have a documented disability which may hamper their success on a Texas Commission on Fire Protection written examination. The commission encourages persons with documented, qualifying disabilities to apply for test accommodations. Reasonable test accommodations will be made for qualified applicants with qualifying disabilities. A qualifying disability is one protected under the Americans with Disability Amendments Act of 2008 (ADAAA). The burden of proof lies with the applicant. The applicant must provide proof of the existence of a qualifying disability as well as a justification of the need for, and reasonableness of, the requested accommodation(s).

Listed below are some typical accommodations the commission provides. Other requests are evaluated on a case-by-case basis and in consideration of the job performance requirements related to the career field that is being tested. The list is not all-inclusive and special accommodation requests not identified below are accepted for consideration by the commission, if they are submitted in writing in accordance to procedures outlined in these instructions.

What the commission *can* allow:

- a private testing room (where the examinee is alone and may read the questions aloud). In order to accommodate this request, the examinee will have to test in the agency's Austin headquarters location or in another location deemed appropriate by the commission;
- the test to be split in two parts with up to an hour break in between (no access to the first half of the exam will be allowed during or after the break). In order to accommodate this request, the examinee will have to test in the agency's Austin headquarters location or in another location deemed appropriate by the commission;
- the questions and answer choices to be printed a little larger (approximately 7% larger);
- the test to be copied on off-white paper (i.e. ivory or cream colored);
- the use of highlighters or a highlighter sheet; and
- any request that changes the condition of the examination or examination process.

If you are requesting special accommodation(s), you must submit documentation from one or more qualified professionals who provide information on the diagnosed disability or disabilities, your current level of impairment, and the rationale for the accommodation(s) requested. In addition, you must submit verifying documentation of your history of accommodations related to that disability or disabilities. All documentation will be retained by the Texas Commission on Fire Protection and may be submitted to one or more qualified professionals for an impartial review. Please note that accommodations that were granted elsewhere may not be approved for the examination you are requesting to take. Considerable weight will be placed on whether the accommodations were granted under similar testing situations.

Requests for accommodations will only be considered after receipt of all required information: testing application, forms, and supporting documentation. Applicants with disabilities are subject to the same application deadlines (e.g., retest dates) as individuals without disabilities. There is no additional application charges for the assessment of the request by the commission, but the applicant is responsible for all costs incurred related to the accommodation request. Because third party input may be sought, the applicant must request testing accommodation a minimum of three months in advance of any deadline or test date request. If an Application for Testing Accommodations is denied in whole or part, the applicant may appeal the decision of the commission according to the established appeal process outlined in TAC, [Chapter 401, Subchapter C](#).

#### Steps for Submitting a Complete Request

Complete Form A (Applicant Request for Test Accommodations) and the applicant's portion of each Form B (Disability Verification) being submitted. A separate Form B is required, along with relevant records, from each qualified professional who will provide information on the diagnosed disability or disabilities. All forms and documentation must be submitted together. Important: Some documentation may need to be completed by third parties; therefore, make sure you request timely completion of these forms in order for you to submit your request well in advance of any deadline or test date request.

The testing application, completed forms, and supporting documentation must be submitted to the direct attention of the Training Approval and Testing Manager, Texas Commission on Fire Protection, via one of the following delivery methods:

For US Postal Delivery use (regular or express):  P.O. Box 2286 Austin, Texas 78768-2286	For all other delivery services:  William B. Travis Building 1701 N. Congress Ave., Suite 1-105 Austin, Texas 78701

No

Describe the findings, including the results of symptoms validity tests. If such tests were not administered, please state why.

---

---

**III. ATTACH A COMPREHENSIVE EVALUATION REPORT.** The provision of reasonable accommodations is based on assessment of the *current* impact of the disability on the specific testing activity. Although a disability normally is lifelong, the severity and manifestations can change. The Texas Commission on Fire Protection generally requires documentation from an evaluation conducted within the last five years to establish the current impact of the disability. **Attach to this form a copy of the comprehensive evaluation report and all records and test results on which you relied in making the diagnosis and recommending accommodations for the requested state certification examination.**

**IV. ACCOMMODATIONS RECOMMENDED FOR THE EXAMINATION REQUESTED**

Background information regarding the Texas Commission on Fire Protection (TCFP) Examinations

The TCFP Examination is a paper examination that consists of multiple choice, matching, and/or true-false questions. During the established TCFP Examination process, the examinee records his or her answers onto a Scantron Answer Sheet within a predetermined time frame using a provided #2 pencil. Some of the examinations (e.g., Fire Inspector and Driver Operator) require the use of a standard 10-key calculator.

Below is information regarding the initial certification examinations offered by the commission:

The longest state certification examination is the Basic Structure Fire Suppression Examination which consists of 150 active questions and may contain one to 25 additional pilot questions (newly developed questions that are placed on an examination for statistical purposes only). The allotted time for this examination is three hours.

A few of the certification examinations (Fire Inspector, Arson/Investigator, Aircraft Rescue Fire Suppression) are 1 ½ hour examinations with 75 active questions and up to 10 pilot questions. The largest majority of the certification examinations (Marine Fire Suppression, Fire Service Instructor, Fire Officer, Hazardous Materials Technician, Driver Operator, Basic Wildland Fire Fighter) are one hour examinations with 50 active questions and up to five (5) pilot questions. The remainder of the certification examinations (Intermediate Wildland Fire Fighter, Incident Safety Officer, Hazardous Materials Incident Commander) are 30 minute examinations that contain 25 active questions and up to five (5) pilot questions.

Taking into consideration these descriptions of the various examinations and the functional limitations currently experienced by the applicant, what test accommodation(s) do you recommend? Please provide specific details (e.g., percentage of extra time).

<b>Accommodation:</b>	<b>Specific Rationale:</b>

Other arrangements (e.g., wheelchair access, beverage, food, medication, lamp, magnifying glass, radio, etc.). Describe the arrangements and provide a rationale for the request.

## Title **Texas Commission on Fire Protection Application for Testing Accommodations General Instructions and Forms**

### V. **General Instructions**

Special accommodation testing is for those individuals who have a documented disability which may hamper their success on a Texas Commission on Fire Protection written examination. The commission encourages persons with documented, qualifying disabilities to apply for test accommodations. Reasonable test accommodations will be made for qualified applicants with qualifying disabilities. A qualifying disability is one protected under the Americans with Disability Amendments Act of 2008 (ADAAA). The burden of proof lies with the applicant. The applicant must provide proof of the existence of a qualifying disability as well as a justification of the need for, and reasonableness of, the requested accommodation(s).

Listed below are some typical accommodations the commission provides. Other requests are evaluated on a case-by-case basis and in consideration of the job performance requirements related to the career field that is being tested. The list is not all-inclusive and special accommodation requests not identified below are accepted for consideration by the commission, if they are submitted in writing in accordance to procedures outlined in these instructions.

What the commission *can* allow:

- a private testing room (where the examinee is alone and may read the questions aloud). In order to accommodate this request, the examinee will have to test in the agency's Austin headquarters location or in another location deemed appropriate by the commission;
- the test to be split in two parts with up to an hour break in between (no access to the first half of the exam will be allowed during or after the break). In order to accommodate this request, the examinee will have to test in the agency's Austin headquarters location or in another location deemed appropriate by the commission;
- the questions and answer choices to be printed a little larger (approximately 7% larger);
- the test to be copied on off-white paper (i.e. ivory or cream colored);
- the use of highlighters or a highlighter sheet; and
- any request that changes the condition of the examination or examination process.

If you are requesting special accommodation(s), you must submit documentation from one or more qualified professionals who provide information on the diagnosed disability or disabilities, your current level of impairment, and the rationale for the accommodation(s) requested. In addition, you must submit verifying documentation of your history of accommodations related to that disability or disabilities. All documentation will be retained by the Texas Commission on Fire Protection and may be submitted to one or more qualified professionals for an impartial review. Please note that accommodations that were granted elsewhere may not be approved for the examination you are requesting to take. Considerable weight will be placed on whether the accommodations were granted under similar testing situations.

Requests for accommodations will only be considered after receipt of all required information: testing application, forms, and supporting documentation. Applicants with disabilities are subject to the same application deadlines (e.g., retest dates) as individuals without disabilities. There is no additional application charges for the assessment of the request by the commission, but the applicant is responsible for all costs incurred related to the accommodation request. Because third party input may be sought, the applicant must request testing accommodation a minimum of three months in advance of any deadline or test date request. If an Application for Testing Accommodations is denied in whole or part, the applicant may appeal the decision of the commission according to the established appeal process outlined in TAC, [Chapter 401, Subchapter C](#).

**VI. Steps for Submitting a Complete Request**

Complete Form A (Applicant Request for Test Accommodations) and the applicant’s portion of each Form B (Disability Verification) being submitted. A separate Form B is required, along with relevant records, from each qualified professional who will provide information on the diagnosed disability or disabilities. All forms and documentation must be submitted together. Important: Some documentation may need to be completed by third parties; therefore, make sure you request timely completion of these forms in order for you to submit your request well in advance of any deadline or test date request.

The testing application, completed forms, and supporting documentation must be submitted to the direct attention of the Training Approval and Testing Manager, Texas Commission on Fire Protection, via one of the following delivery methods:

For US Postal Delivery use (regular or express):  P.O. Box 2286 Austin, Texas 78768-2286	For all other delivery services:  William B. Travis Building 1701 N. Congress Ave., Suite 1-105 Austin, Texas 78701

**VI. ATTACH A COMPREHENSIVE EVALUATION REPORT.** The provision of reasonable accommodations is based on assessment of the *current* impact of the disability on the specific testing activity. Although a disability normally is lifelong, the severity and manifestations can change. The Texas Commission on Fire Protection generally requires documentation from an evaluation conducted within the last five years to establish the current impact of the disability. **Attach to this form a copy of the comprehensive evaluation report and all records and test results on which you relied in making the diagnosis and recommending accommodations for the requested state certification examination.**

**X. ACCOMMODATIONS RECOMMENDED FOR THE EXAMINATION REQUESTED**

Background information regarding the Texas Commission on Fire Protection (TCFP) Examinations

The TCFP Examination is a paper examination that consists of multiple choice, matching, and/or true-false questions. During the established TCFP Examination process, the examinee records his or her answers onto a Scantron Answer Sheet within a predetermined time frame using a provided #2 pencil. Some of the examinations (e.g., Fire Inspector and Driver Operator) require the use of a standard 10-key calculator.

Below is information regarding the initial certification examinations offered by the commission:

The longest state certification examination is the Basic Structure Fire Suppression Examination which consists of 150 active questions and may contain one to 25 additional pilot questions (newly developed questions that are placed on an examination for statistical purposes only). The allotted time for this examination is three hours.

A few of the certification examinations (Fire Inspector, Arson/Investigator, Aircraft Rescue Fire Suppression) are 1 ½ hour examinations with 75 active questions and up to 10 pilot questions. The largest majority of the certification examinations (Marine Fire Suppression, Fire Service Instructor, Fire Officer, Hazardous Materials Technician, Driver Operator, Basic Wildland Fire Fighter) are one hour examinations with 50 active questions and up to five (5) pilot questions. The remainder of the certification examinations (Intermediate Wildland Fire Fighter, Incident Safety Officer, Hazardous Materials Incident Commander) are 30 minute examinations that contain 25 active questions and up to five (5) pilot questions.

Taking into consideration these descriptions of the various examinations and the functional limitations currently experienced by the applicant, what test accommodation(s) do you recommend? Please provide specific details (e.g., percentage of extra time).

Accommodation:	Specific Rationale:

Other arrangements (e.g., wheelchair access, beverage, food, medication, lamp, magnifying glass, radio, etc.). Describe the arrangements and provide a rationale for the request.
